Getting Started.

It is recommended that everyone who chooses to drink Kangen Water starts by drinking the 8.5 pH water. The Kangen water is obtained by pressing the blue button on the front of the machine. Multiple presses will move you through the three different levels of Kangen water that are produced.

This water is dispensed through the top flexible hose. Drink at least 1/2 of your body weight in ounces each day. If you do physically demanding work, participate in strenuous athletics, or are dealing with sickness/inflammation, you need to drink more Kangen water to help your body move towards & achieve homeostasis.

In these situations, it's recommended that you drink at least 3/4 of your body weight per day. It is my observation that those who drink a minimum of 3/4 of their body weight in oz. of Kangen water per day, see the quickest results.

WITH Kangen Water.

After successfully drinking the suggested amount of 8.5 pH water for two weeks ("successfully" means you are not experiencing any discomfort while drinking the water - other than the frequency of urination), then you may choose to increase the water pH level up to the 9.0 pH setting each day for at least two more weeks.

After successfully drinking the suggested amount of the 9.0 pH water (again meaning that you are not experiencing any discomfort while drinking the water other than frequent urination), then you may choose to increase the water up to the 9.5 pH setting.

11.5 pH STRONG KANGEN WATER

1. A GOOD NIGHT'S SLEEP: Drink 0.5-1 ounce of Strong Kangen Water (11.5 pH) before bed to help release melatonin for a great night's sleep.

2. EYE WASH: Rinse eyes with an eye cup. After removing the eye cup from its packaging, soak it in Strong Acid Water (pH 2.5) for 1-2 minutes to clean and disinfect. Then rinse the eye cup thoroughly with Strong Kangen Water (pH 11.5). Place cup firmly around one eye, keeping your eye open, tilt your head back and gently roll your eye as though you were attempting to look up, down, and from side to side. Continue this for approximately 1 minute. Dispose of the water in the eye cup and rinse the eye cup thoroughly with Strong Acid Water before rinsing other eye. Repeat steps for your other eye. To maintain healthy eyes, follow this protocol 1-3 times per week. When working to improve any eye condition, follow this protocol at least 2 times daily and up to 10 times per day.

3. GREASE IN EYE: Spray 11.5 as needed to soothe and heal eye.

4. MAKE UP REMOVER: Spray on eyes to dissolve and remove make up.

5. PUFFY EYES: Spray onto eyes to reduce puffiness.

6. HOT BATH SOAK: Use one gallon of 11.5 added right at the end of filling the tub to replace epsom salts or any other remedy. This works even better if you have the Anespa from Enagic.

7. ALLERGIES, COLD SYMPTOMS, SNORING: Use as a nasal wash when sinuses are clogged. Due to reduction in inflammation of nasal passages this technique can also reduce snoring.

8. SUNBURN, PAIN, BUG BITES, SWELLING: Spray or soak areas with a towel that's been soaked in 11.5 and keep wet by adding small amounts of 11.5 to the towel for a minimum of 30 minutes (best if it's one hour) twice a day.

9. HEART BURN, INDIGESTION, FOOD POISONING, STOMACH FLU: Drink 1/4 Cup fresh 11,5 immediately followed by 25 ounces of 9.5, then do not eat or drink anything for 45 minutes. Repeat the next day only if necessary.

10. ARTHRITIS, GOUT, MUSCLE SORENESS OR TISSUE INJURIES: Since high alkalinity draws out acids, you can soak in 11.5 to "pull out" acids associated with inflammation, injury, and pain.

11. HANGOVERS & MIGRAINES: Before drinking, or as soon as you feel a migraine coming on, drink several ounces.

12. CHEMOTHERAPY: Drinking the water with chemotherapy may lessen the side effects because it reverses metabolic acidosis and has antioxidant properties. Put 11.5 on the skin twice daily for burns from chemo.

13. STROKE: Drink as much as able if you feel a stroke coming on to provide potent alkalinity to overcome severe acidosis causing the stroke.

14. FRUITS & VEGGIES: Soak for a minimum of 5 minutes to clean off pesticides.

31. OPEN WOUNDS, BURNS, INFECTIONS, STOP BLEEDING, KILLS CANDIDA: Kills bacteria and pathogens. Use on cuts/scrapes to help stop bleeding. Clean twice daily until healed. Do not use any other ointments as they only attract microbes by keeping the area moist and sticky.
